Rabat, Morocco

EDUCATION

Sultan Moulay Slimane University

Bachelor's degree in Computer Science

From 2022 to 2025

Ahmed Al Hansali Digital School

Full Stack JavaScript Developer

From 2024 to 2025

Oued Eddahab High School

Physical and Chemical Sciences

From 2021 To 2022

SKILLS

Programming languages:

HTML, CSS, Javascript, Java and PHP.

Front-End Development:

ReactJs, Tailwind CSS, React Native, VueJS and JQuery.

Back-End Development:

Laravel, NodeJS and ExpressJS.

Database:

MySQL, MongoDB and PostgreSQL

Versioning tools:

Git, Github and GitLab

Design:

Sketch, Photoshop and Figma.

Modeling tools:

UML and Merise.

Architectures:

MVC and REST API.

PROJECTS

E-commerce web application

Developed a complete e-commerce platform. I handled user authentication, product management, and payment integration. I implemented features such as shopping cart, product lists, and administrative controls.

Technologies used:

- Frontend : React.js, HTML, CSS, JavaScript (ES6), Tailwind
- Backend : Node.js and Express.js
- Database : MongoDB and Mongoose
- Authentication : JWT, Bcrypt and Passport
- Additional: Stripe API for Payment Integration

Real-time chat platform

Creation of a chat platform allowing users to create private and public rooms, invite others and chat in real time.

Technologies used:

- Frontend: React.js, Redux, HTML, CSS, JavaScript (ES6) and Tailwind
- Backend: Node.js and Express.js
- Database: MongoDB and Mongoose
- Authentication : JWT, Bcrypt and Passport
- Additional: Stripe API for Payment Integration and WebRTC.

Chatbot with OpenAI API

I created a voice chatbot with OpenAI API for intelligent responses. The application uses speech recognition to understand users.

Technologies used:

- Frontend: HTML, CSS, Tailwind, Vue.js and Redux
- Backend: Node.js and Express.js
- Database: MongoDB and Mongoose
- Authentication: JWT, Bcrypt et Passport
- Real-time communication: WebRTC
- Additional: RealTime API for user interaction
